

	<p>For each paper you wish to comment on (Please repeat as many times as required)</p> <p>Name of the paper: Administration of Internet Names and IP Address</p>
	<p>Has the issue as it applies to the question of Internet Governance been adequately identified? No</p>
	<p>Comments:</p> <p>The paper provides a good description of the historical evolution of the internet and the various groups involved in its management. However:</p> <ul style="list-style-type: none"> - Issues related to internet governance are not clearly identified. - Alternative governance mechanisms for Administration of Internet Names and IP Addresses are not considered. For example the possible role of the ITU. - The merits of different models are not addressed in a way that would provide the basis for future discussion
	<p>Does the paper cover the topic with sufficient depth and accuracy? No</p>
	<p>Comments</p> <ul style="list-style-type: none"> - Weaknesses & threats are not adequately analysed
	<p>Does the paper achieve a reasonable balance in weighing relevant matters? No</p>
	<p>Comments</p> <ul style="list-style-type: none"> - The paper does not give a fully balanced view of the current situation, and tends to portray it as being the ideal model.
	<p>Any other comments</p>
